BURHANI WIRE CLOTH CO.

Industrial Wire Mesh & Filtration Solutions

PRODUCT CATALOGUE | 2026

A visual guide to stainless steel wire mesh, filter components, industrial gaskets and custom-fabricated products.

Precision manufacturing | Custom dimensions | Industrial supply

Explore the product range and share your specifications for a quotation. Product images are illustrative; final construction, material and dimensions depend on approved requirements.

Product Range

Stainless steel mesh, industrial filter elements and precision-fabricated components.

01 Chain Link Wire Mesh

02 SS Screen Belt

03 Spot Welded Wire Mesh

04 Perforated Wire Mesh

05 SS Cut Filter

06 SS Pack Filter

07 Aluminium Gasket

08 Aluminium Flat Gasket

09 Aluminium Step Bush

10 CPF Gasket

11 SS Candle Filter

12 SS Spin Pack Filter

13 SS Wire Mesh

14 Copper Gasket

15 Cylindrical Filters

16 Mosquito Wire Mesh

How to request a quotation

Provide product name, material grade, mesh count or micron rating (where applicable), wire diameter, inner/outer dimensions, thickness, quantity, drawings and operating application.

PRODUCT 01 / 16

Chain Link Wire Mesh

Product overview

Interlinked metal wire mesh for durable barriers, partitions and protective enclosures.

Typical applications: Industrial fencing, guarding and partitions.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

PRODUCT 02 / 16

SS Screen Belt

Product overview

Stainless steel mesh belt supplied in roll or belt form for continuous processing.

Typical applications: Conveying, screening and process lines.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

PRODUCT 03 / 16

Spot Welded Wire Mesh

Product overview

Welded wire intersections create stable panels with consistent openings.

Typical applications: Machine guards, screens and fabricated assemblies.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

PRODUCT 04 / 16

Perforated Wire Mesh

Product overview

Perforated metal screens and panels with openings selected to suit the application.

Typical applications: Screening, ventilation and filtration support.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

PRODUCT 05 / 16

SS Cut Filter

Product overview

Cut-to-size stainless steel mesh filter discs for installation in filter assemblies.

Typical applications: Filtration, separation and equipment protection.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

SS Pack Filter

Product overview

Stainless steel filter elements designed for integration into industrial filtration packs.

Typical applications: Industrial filtration and process equipment.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

PRODUCT 07 / 16

Aluminium Gasket

Product overview

Machined aluminium ring gaskets for mechanical fitting and sealing arrangements.

Typical applications: Industrial assemblies and mechanical interfaces.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

Aluminium Flat Gasket

Product overview

Flat aluminium ring gaskets manufactured to required inner and outer dimensions.

Typical applications: Equipment assembly and sealing interfaces.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

Aluminium Step Bush

Product overview

Stepped aluminium bushes with shoulders and bores for precision fitment.

Typical applications: Locating, spacing and machine assemblies.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

CPF Gasket

Product overview

CPF gasket rings for filtration assemblies, textile machinery and other industrial systems.

Typical applications: Breathing-air filters, textile spin packs, irrigation and water systems.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

CPF Candle Filter

Product overview

CPF candle filter elements made for application-specific filtration and machine fitment.

Typical applications: CPF filtration assemblies and industrial process equipment.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

SS Spin Pack Filter

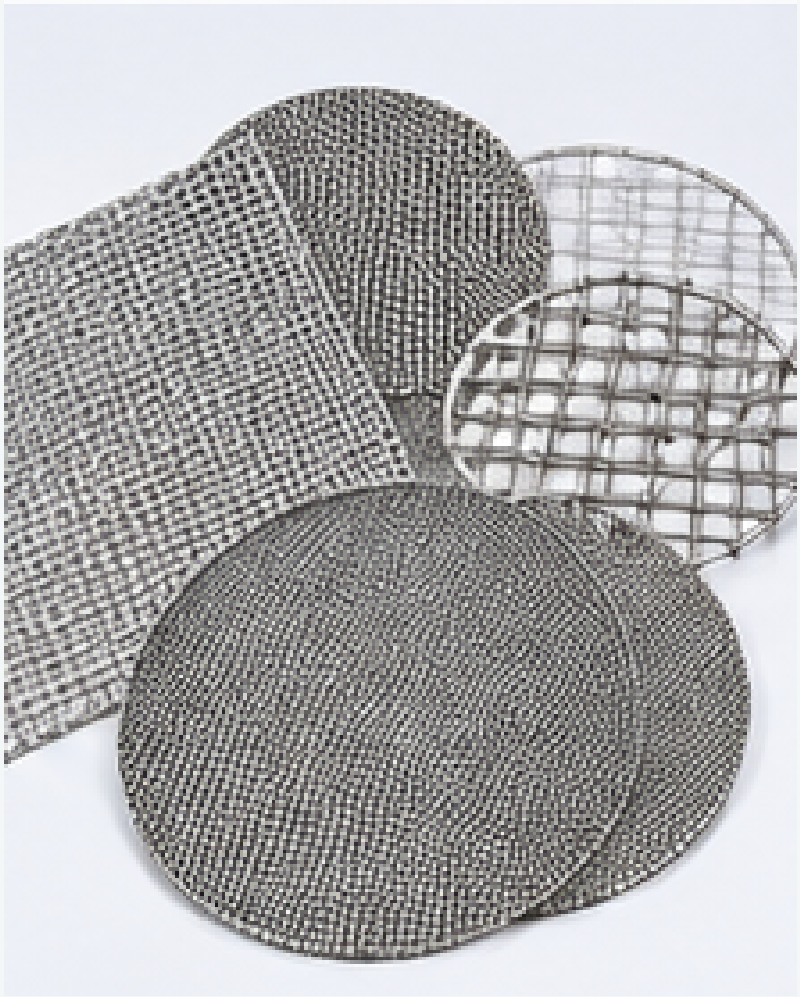

Product overview

Stainless steel filter cartridges and components for spin-pack configurations.

Typical applications: Polymer extrusion and process filtration.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

SS Wire Mesh

Product overview

Woven stainless steel wire mesh available as sheets, rolls or fabricated pieces.

Typical applications: Sieving, separation, screening and filtration.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

Copper Gasket

Product overview

Copper ring gaskets for selected industrial sealing and fitting requirements.

Typical applications: Mechanical connections and thermal applications.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

Cylindrical Filters

Product overview

Formed cylindrical wire-mesh filter bodies with application-specific sizes.

Typical applications: Straining, filtration and equipment protection.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

Mosquito Wire Mesh

Product overview

Fine wire mesh in roll form for insect screening and protective openings.

Typical applications: Doors, windows and ventilation screens.

Available to specification: Material, dimensions and configuration subject to enquiry and confirmation.

Enquiries & Custom Requirements

Burhani Wire Cloth Co. supports industrial buyers with specification-led enquiries for mesh, filters, discs, gaskets and fabricated components.

Send your requirements

Product type / Material grade / Mesh or micron / Dimensions / Quantity / Application / Technical drawing (if available)

Catalogue notes

Descriptions summarize general product uses and website information. Photos are product illustrations, not certified dimensional or material specifications. Confirm suitability and technical details before ordering.
